## ALEXANDRIA, VA.

SATURDAY, APRIL 15, 1871.

THE KU-KLUX BILL .- Yesterday, in the Senate, the Ku-Klux bill was taken up and debate closed on it. Voting on the amendments commenced, and the first adopted was one making it a high crime and misdemeanor to injure a U. S. officer in the discharge of his duties. The President was entrusted, until the close of the next session of Congress, with power to suspend the writ of habeas corpus. Other amendments, to assess damages on the city, county, or parish in which property or person may be injured, and striking out the clause repealing the test oath for U. S. jurors, were also adopted. In this shape the bill now goes back to the House. Last evening the Democratic members of the Senate and House of Representatives held a caucus at Washington relative to this bill "to prevent outrages in the Southern States." They considered the bill, says a Washington dispatch, as "being made very much worse by the amendments adopted by the Senate, and therefore requiring a more carnest opposition on their part.

In the House of Representatives, yesterday, Mr. McKee made a personal explanation, showing that in a speech partially delivered in the House by Mr. Garrett, of Tennessee, and printed entire in the Globe, the portion not spoken in the House contained an article from a Vicksburg paper speaking of Senator Ames. Mr. Garfield offered a resolution to bring Mr. Garrett before the bar of the House and have him reprimanded by the Speaker. Subsequently Mr. Garrett expressed his regret that he had violated the rules, and Mr. Garfield modified his resolution so as only to expunge the speech; in which shape it was adopted.

The Oakland (Calfornia) News, commenting on the trial of Mrs. Fair, now going on at San Francisco, says that according to the testimony of Dr. Lyford. Mrs. Fair, when she shot Crittenden must have been in a terribly bad way. That learned authority says he found her amenic, in addition to which she had retrocedent gout, metatisis, dismeunorrhœa, catamen | therefore, a famine, and steamers telegraphed to understand that she also had idiosyncracies! This is severe, ideed!

The rolls of the Pension Office furnish us with the name of the last surviving revolutionary pensioner, and the only positively known revolutionary soldier alive. His name is Daniel Frederick Bateman, now residing in Freedom. Cattaraugus county, New York, where he has resided for the past sixteen years. An old man upwards of 100 years old, who fought in the revolutionary war, is said to be living in Newbern, N. C., but his name is not on the pen-

It is now said that the President has again reconsidered his intention to visit the Pacific coast immediately after the adjournment of Congress. On account of the continued session of the Joint High Commission, and necessity of giving his personal attention to the carrying out the provisions of the bill to suppress Southern "Ku-Klux," he defers his proposed visit to California until the fall. But some say, he will go, notwithstanding.

Mr. Goldschmidt, the husband of Jenny Lind, has sued the proprietors of several newspapers in England, for publishing scandalous libels about him, and has recovered damages against them; two for £750, and one £500. So far from being a gambler and a spendthrift, it appears, he is a careful, money making man, attentive to his wife's interests, and living with her very harmoniously and happily.

In the Senate, yesterday, Mr. Howe retracted his statement, made in his speech on San Domingo, that Mr. Sumner was acting in the interests of the Democratic party, being convinced that he was mistaken in the assertion. Mr. Samner replied, reiterating his devotion to Republicanism, and stating that he wishes to save the Republican party from responsibility for the course of the administration!

Col. Jerome N. Bonaparte, the son of the arrived from Paris. He is said to express the opinion that the civil war in France will soon be brought to a conclusion, and that the Napoleonic dynasty will finally be restored. This is the opinion of all the friends of th eNapoleon

A fire occurred in Norfolk on Wednesday. which broke out in the store of Smith & Simmons. Several houses, with their contents, were burned. Loss, we hear, some \$10,000. A fire in Petersburg on Wednesday also destroyed property to the amount of \$2,000.

Mr. B. F. Butler, it seems now "figures" in the House of Representatives almost every day. Mr. Farnsworth is down upon him again.

BRITISH QUARTERLY REVIEW .- The first number of the American reprint of this Re-Scott Publishing Co. Briefly, its contents are as follows the American Press. International Coinage, the Malmesbury Papers, Explorations in Palestine, Early Sieges of Paris, Established Church in Wales, Greek New Testament of Dr. Tregelles, The War of 1870, and a very valuable miscellany of Contemporary Literacure. This review now takes the place left vacant by the discontinuance of the North-

An excitement in Newfoundland, equal to that on the gold discovery in California, now prevails. After twenty years of business stagnation the people have "struck oil" in seal fishing. The catch is unparalleled and marvel-

There is what is called a "dead lock," in the New York Legislature—both the political parties having the same number of membersand neither side will give way to allow of legislation.

Mr. L. P. Crowder, a young married man, in Petersburg. Va., suddenly disappeared on Tuesday evening last, and has not been heard

It is difficult to get at the real situation at Paris, owing to the contradictory character of telegrams, and the different statements made by the contending parties.

Fighting is said to be still going on in Cubathough there appears to be no chance for the final success of what are called the insurgents.

Twenty thousand copies of the Report of the Commissioner of Education, have been ordered by Congress, to be printed.

The Court of Appeals of Virginia is to adourn on Wednesday next.

#### NEWS OF THE DAY.

To show the very age and body of the Times.

The Associated Press telegraphic report made the blunder of stating that Rev. Mr. Cheney confirmed nineteen persons at his church in Chicago on Sunday, Bishop Whitehouse refusing to attend because he regards the Rector as outside the pale of the Church. Only a Bishop can administer the rite of confirmation. What Mr. Cheney did was to ad mit the confirmation class to the communion. they having presented themselves for confirma-

The ceal miners of St. Clair, Illinois, have suspended work under an apprehension that a reduction in wages was designed by the mine owners. These mines number about thirty. and furnish over 90 per cent, of the coal used in St. Louis harbor and city. The suspension took the owners by surprise, and found them without any stock on hand. The result is, icals, and insomania! We are likewise given to supply themselves with coal at other points.

The Methodists of Baltimore have purchased a beautiful tract of heavily wooded land near Reistertown, Baltimore county, as a permanent location for their camp meetings. The next camp will commence on Wednesday, August 2nd, and steps are now being taken to prepare the grounds, and make all other ne-

essary arrangements. Much anxiety is felt in Gloucester regarding the safety of several of the fishing fleet, the gale of April 2d, on George's Bank, being one of the most violent of the season. News has already been received of drownings. The loss of life during the present season on the banks has been very large, not less than 55 men and 6 ressels having been lost since January 1st.

John W. Hall, of Sparta, Morrow county. Ohio, has been arrested at the instance of special agent Baldwin of the Postoffice Department, charged with using cancelled stamps for the payment of postage upon letters. The examination elicited the fact that he had been systematically defrauding the Postoffice Department in this way for some time.

Generals Sherman, accompanied by Aids-de-Camp Col. McCoy and Tourtelotte, has gone to New Orleans, whence he will proceed to San Antonio, Texas, from where he will start on a grand tour of inspection of the military on the plains as far nort has the Union Pacific railroad Gen Marcy inspector general of the army, will join the party at New Orleans.

Aristocrats Going to Work.-A Warsaw correspondent of the Russian, St. Petersburg Gazette says that a great change has come over the character of the Poles of late :-The old prejudices which prevented a nobleman from engaging in industrial or commercial pursuits have almost entirely disappeared. I have myself seen the descendants of old aristocratic families working early and late in factories and offices, and I know an old nobleman who has made his son apprentice to a baker, and is now about to help him to set up for nimself, without the least anxiety as to what | replied in the following metaphor: his ancestors would have thought on the subject. The care for one's daily bread has completely humbled the old aristocratic pride and driven it from the minds and hearts of the Polish nobility. I know a very clever and wealthy land-owner of Lithunia, who collected er any more oxygen nor hydrogen. but a diain Warsaw a commercial house under his own name, which furnishes him and his family with the means of living very respectably.-Everywhere, and in all classes of society, is to of a nature to improve the country.

A LONG HORSEBACK RIDE.—Three young gentlemen, says the Selma (Ala.) Times of Satarday, left that city on yesterday on what will doubtless be considered, in this day of railroads and rapid transit, a remarkable trip. They left for New York on horseback, and will go the entire distance in the saddle. The names of these gentlemen are as follows: C. L. Tilden. Frederick Sherman and R. D. Turner. The first two have been in business here for some months past: the last named came from New York specially to make this trip. The party staid last night at the residence of Col. Shackelford, a few miles from the city. They are all well mounted, and equipped for the journey, and, we have no doubt, will have a pleasant trip. They are clever gentlemen, are Northern men, and we suggest that they take Washington in their route, and when they reach there, that they be called before the Congressional committee to tell what they saw of the Ku Klux. We commend these gentlemen to the kind consideration of the people along their route of travel.

POTATO SUGAR. - The agricultural journals begin to talk of a new industry, the manufacture of sugar from sweet potatoes. The average product of a bushel of potatoes-the yam variety being preferred—is said to be over two Culpeper, which seemed to be considered the gallons, and as the average yield per acre on poor, sandy soil is from a hundred and fifty to Committee was appointed for the county IMPORTING VOTERS - We ask the serious attention of the people of the District, and of the product will be from three hundred to a hundred and eighty bushels, it follows that three hundred and fifty gallons of syrup. This syrup, moreover, is said to surpass that of the beet, and even that of the sorghum in delicacy

THE TRIALS OF JOURNALISM.-Whitelaw Reid, now the able managing editor of the New York Tribune, was a dozen years ago editing the Xenia (Ohio) News. He made a smart editor, but. like all other journalists, had his experiences. We will let hime him tell his own story in his own words. He says there is one thing in the Tribune office which grieves fessor Harris saved his stock and only lost man fessor Harris saved his stock and only lost man stable and provender. No insurance. A colling the incondiary, and arrested.

one thing and that is the proof-reading. And only in this story: "I can manage pig-iron for my chief, but I cannot manage the proof-readers, there once a week I get an injunction from and about once a week I get an injunction from him that I must dismiss a proof-reader. 'And that recalls my early experience when I learned it in a small way. In those days we had college advertisements, which came into the office with the explanation that "this is to be inserted in case you give an excellent editorial notice along with it. One day we had an advertise-ment of the Columbus Commercial College, and the foreman came to me and told me there must be an editorial notice of it. My time was pleased to notice, while passing through the short. The forms were waiting, and I wrote it straighway-"The Columbus Commercial hannock, on Monday last, the fine prospect for College is an excellent and well-deserving institution. The advertisement appears in another column. I sent it to the proof reader and went home. I got up late the next day, and the edition had all been mailed before I saw it. You can imagine the perfectly amiable state of my feelings when I read: "The Columbus Commercial College is an excellent and hell deserving institution. You can't believe it, but to this day the bill for that advertisement

> Confederate Remains. - A correspondent of the New York Times, writing from Augusta.

At the base of the sand-hills and on the bank of the canal are situated the powder-mills, where was manufactured all the gunpowder used by the Confederates during the last two years of A red flag waved upon the track must be re- the war. These works, which stand as they were left in a dismantled condition, were the most extensive works of the kind in the world. They extend for nearly three-fourths of a mile along the canal bank, and consist of thirteen Stuck up by the road side, it is a signal of mills, so built that if one should be blown up it would not in any way arrest the work going on in the others. It seems a pity that such splendid buildings should be allowed to go to ruin. It may be interesting to mention that where the powder-mills now are, was in the early settlement of the city, the original Arsenal where was quartered the United States garrison. But the place wes so damp that it was found to be very unhealthy, and so the Arsenal was removed to its present locality in

> AN INTERVIEW.—When Miss Phoebe Cozins waited upon Governor Brown in regard to female suffrage in Missouri, the Governor enquired whether she was not prejudiced against the marriage relation. To this Miss Cozins

"A molecule of oxygen roaming lonely through space, seeking for its mate, but finding none, when of a sudden in some hideous nook it discovers a molecule of hydrogen, when lo! there is a rush, an embrace, and there is neiththe remains of his property and founded here mond drop of dew reposing on the white bosom OPENING OF of the lily.

It is said that that venerable Missourian surveyed the lady curiously, but not being satisfied. merely remarked that he "would look about be seen a powerful desire for work and action for some molecules of hydrogen, as he himself was not willing to play that part." Phoebe didn' stay there long after that. - Lynchlary

SHERMAN DON'T WANT TO BE PRESIDENT. [Proceedings Army of the Tennessee, |-Mr. Rowland then remarked that he did not know how he could atone for the blunder he had made in introducing Gen. Sherman, unless it was by nominating him for President of the

United States. The General jumped to his feet before there could be any manifestation of applause and said: "No, no; my present office is worth more than the Presidency. Mine is a life estate, while that of the President is only for four years.

The retort was received with cheers, and Gen. Sherman sat down well satisfied with his

RAPPAHANNOCK COUNTY. At Rappahannock Court, on Monday last, a meeting was held for the purpose of endorsing the movement made by the farmers and others of best material for ten cents only at the Alexan-Culpeper, to organize an Agricultural Associa tion. John G. Lane, esq., was called to the chair, and F. Pendleton Carter, esq., appointed secretary. Capt. Eustace Gibson place, made a speech. in which after forcibly alluding to the benefits arising from such an organization, he advised co-operation and association with the more general movement at best policy by the meeting. WANTED-An AGENT for the city of Alexandria and the counties of Loudoun, Fairfax and Prince William for the PIEDMONT AND ARLINGTON LIFE INSURANCE COMPANY. This Company has met with the most unprecedented success; has issued over 13,500 policies, and now has an income of \$1,500,-U.O. The rates of expense to income is 18.83 less than half the average expense of some 30 companies of the same age. Its mortality has been oper cent less than the average losses of other companies. It has a divisable surplus thirteen per cent larger than the divisable surplus of most companies has passed the scrutinizing inspec-tion of the insurance departments of Missouri, California and Kentucky. Read what General

Breckinridge cay I regard the Piedmont and Arlington Company a one of the largest and soundest of all 2 athern companies. From a personal acquaintance with some of its officers, and after a careful examination of its condition and conduct, I have associated myself with its business in the State Address or apply to CARTER BERKELEY.

MAGNUM BONUM

AGRICULTURAL.

# SOLUBLE PHOSPHATE

Reduction in Price!

This article in composed of Pure Ground Bone dissolved in Sulphuric Acid, Animal Matter and

Potash. It contains no heavy mineral substances such as enter into the composition of most of the arti-cles sold under the name of Super Phosphates, and consequently the bags in which it is packed though as large as any other, contain only 167 pounds, thus saving to the farmer at least 20 per

cent of weight in the same bulk.

It has less inorganic matter than those articles which are based on Rock Guano or other heavy material. The farmer therefore derives benefit from almost every atom of its bulk, either as a crop grower or permanent improver of the soil

#### PRICE 854 PER 2000 LBS.

Pomonkey, Charles county, Md., September 19, 1870.

Dear Sir: I am much pleased with the Magnum Bonum. It is all you represented it to be I shall want another ton this fall.

in its favor between it and stable manure. Of give entire satisfaction.

In haste. I remain yours, very respectfully, GEO. P. JENEINS.

Baltimore, July 20, 1870. Gentlemen: It affords me great pleasure to testify to the virtues of the Magnum Bonum Fertilizer, as tested this spring at my country residence, Nestlewood. I tried it upon old grass, new sod, flowers, veg

stables, &c., and in all cases with the most mark I sowed lawn grass seed where the subsoil was of hard clay, with only one inch of top soil, and that poor, and gave it a dressing of Magnum Bonum on April 10, 1870. By the 10th of May. the grass was two inches high, and very thick and green. I then sowed ground plaster on it, and since have cut two crops, each about eight and since have cut two crops, each about eight inches high, and competent judges declare it the most remarkable stand of grass, for its age, they ever saw. I can therefore say that for grass lands, vegetables, &c., your Magnum Bonum surpasses any Fertilizer I have ever seen. Very truly, yours.

W. Courtenay.

[Ex-Governor William Smith, of Virginia, Warrenton, Va., July 30, 1870. Gentlemen: I am in receipt of yours of the 18th instant, asking my opinion of your Magnum Bonum Soluble Phosphate upon my spring crops. In reply, I have tried it on corn, roots and millet, with entire satisfactory results so far and alongside of Turner's Ammoniated Phos-phate, which I esteem highly, and without any

appearance of inferiority.

It is right that I should say that we had an extraordinary wet year since the opening of spring Yours, respectfully. WM. SMITH

Charlottesville, Va., Feb. 1, 1871. Mr. Thos. Perry, Alexandria, Va.: My Dear Sir: Enclosed you will find the statement of my manager, Mr. Jacob O. McGebee, of the effects of your Magnum Bonum sent me for my last crop of corn. Mr. McGebee has been living with me now going on three years, and I think him-one of the most accurate and reliable men it has ever been my good fortune to meet with. Yours, GEO. C. GILM, ER,

February 1, 1871. Geo. C. Gilmer, esq.:

Yours asking the result of my experiment with Magnum Bonum is to hand. The Fertilizer was applied to corn at planting. May 5th, with machine, (wheat drill, with all tubes but two removed,) depositing same with seed at the rate of 50 pounds per acre. On June 28th was applied broadcast of same manure two hundred pounds per acre, ploughed in at last working of corn. The first application acted finely, causing the crop to push with a vigorou-growth second to none, considering the differenc-as to time in favor of its competitors. The second application made when the corn was beginning to suffer for rain was entirely satisfactory in itresults, producing a steady, rapid growth and development throughout the season, and a full remunerative return at gathering. The Magnum Bonum ranks among the best manures ever used.

Respectfully J. O. McGebee, Manager.

A full supply always on hand and for sale by

THOMAS PERRY, Alexandria, Va

Baugh's Raw Bone Phosphate

I have on hand a full supply of this

OLD ESTABLISHED FERTILIZER.

put up in bags of 160 lbs. THE PRICE HAS BEEN REDUCED

to keep pace with the times.

Pri e 852 per 2000 lb.
